18:30 - 19:00	Summary of discussions and closing of ALWG meeting by chair ALWG	prof. David Macdonald and Kelly Marnewick
<i>Evening</i>		
19:00 - 20:30	Dinner	
20:30 - 22:00	Social gathering with drinks	

MONDAY 4 AND TUESDAY 5 NOVEMBER: EXCURSION TO LAIKIPIA ORGANISED BY LAURENCE FRANK

More information is available on the ALWG website:

<http://www.africanliongroup.org/meetings.html>

The excursions will consist of visits to Laikipia ranches and conservancies to learn how they raise livestock commercially in rangelands that also support robust populations of all the African large carnivores and their wild prey. We will see the locally developed mobile lion-proof bomas, local herding practices, the use of

GPS collars to aid in lion and livestock management, and the new Lion Rangers programme. Steven Ekwanga will demonstrate the setting of foot snares, a technique that is more efficient and humane than cage traps for capturing wary lions that cannot be approached for free darting. We will not actually trap any carnivores.
